

FortiExtender™ Cloud

Rapidly deploy and dynamically manage LTE networks at geographically distributed locations with FortiExtender Cloud, Fortinet's network management and platform for managing the FortiExtender. Improve productivity, reduce costs, and enhance the reliability and intelligence of your network and business operations.

Global Management

Manage thousands of FortiExtenders from a single browser, no matter where they are in the world. Use groups to easily and securely configure, upgrade, or monitor your appliances.

Intelligent LTE Bandwidth Management

Simplified reporting enables monitoring of data usage by group, device, or plan — giving you instant visibility to bandwidth consumption. Device usage is broken down by SIM card for Smart SIM reporting and management.

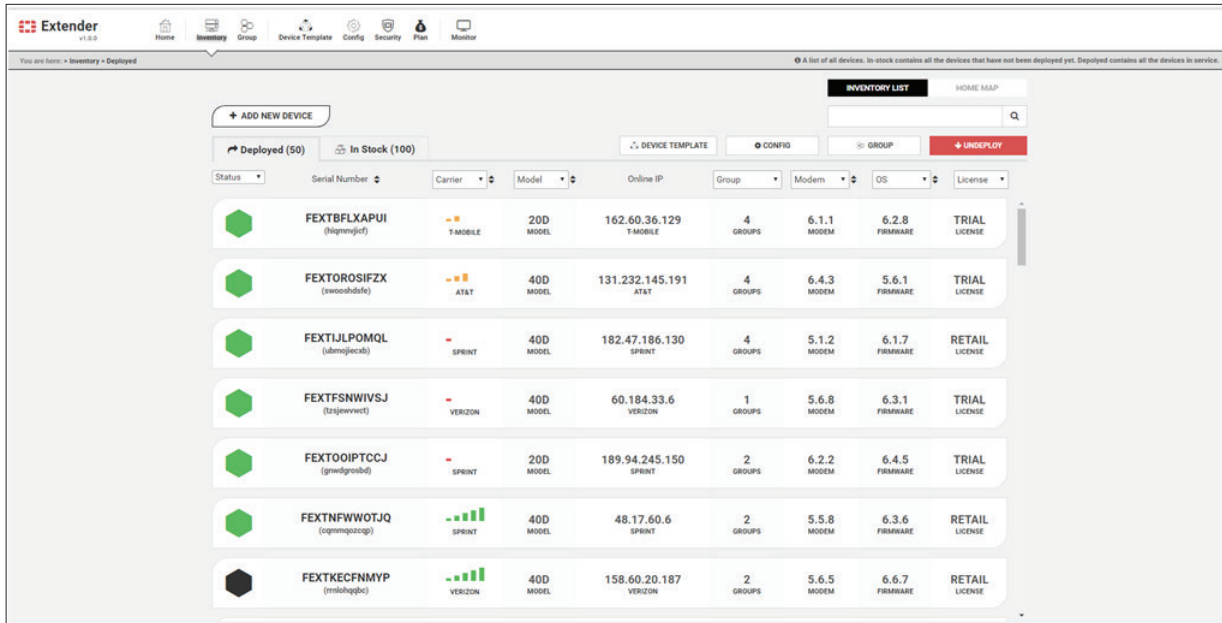

Provisioning

Zero-touch provisioning means your devices will automatically show up in your account.

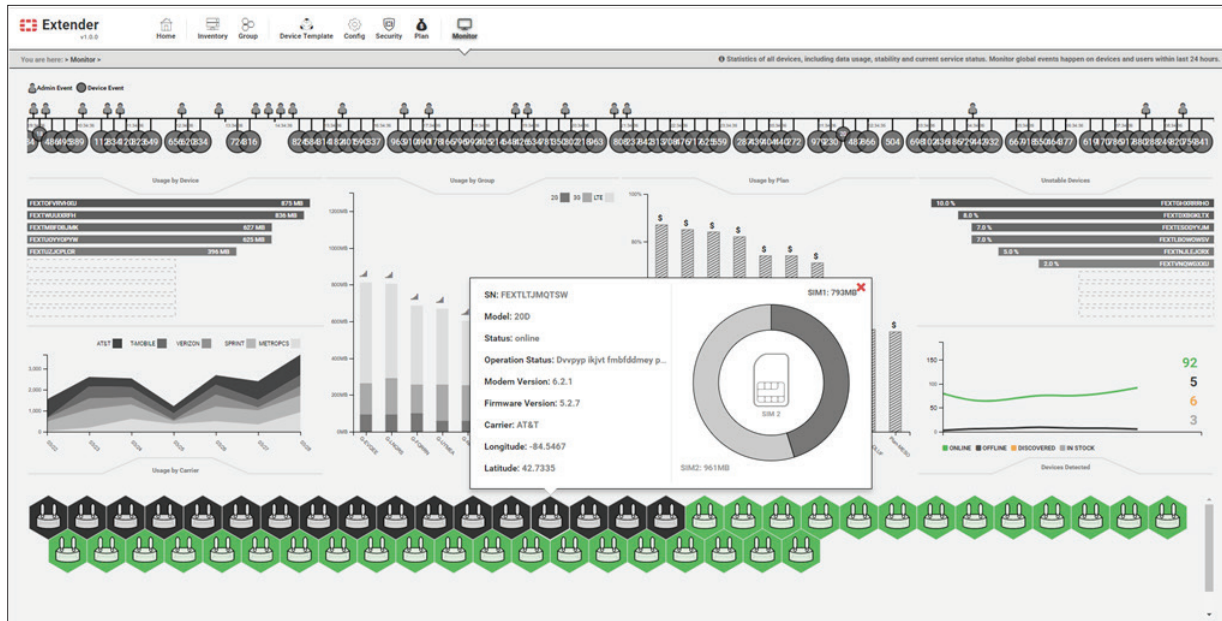

Key Features

- Unlimited number of devices
- FortiExtender inventory management
- Carrier plans management
- Smart SIM switching
- Zero-touch deployment
- Centralized management
- Role-based access control
- Configure groups and individual devices
- Remotely update firmware and modems
- Manage user access
- Group and device reporting
- Secure device registration and authentication
- Open API for third-party integration

Highlights

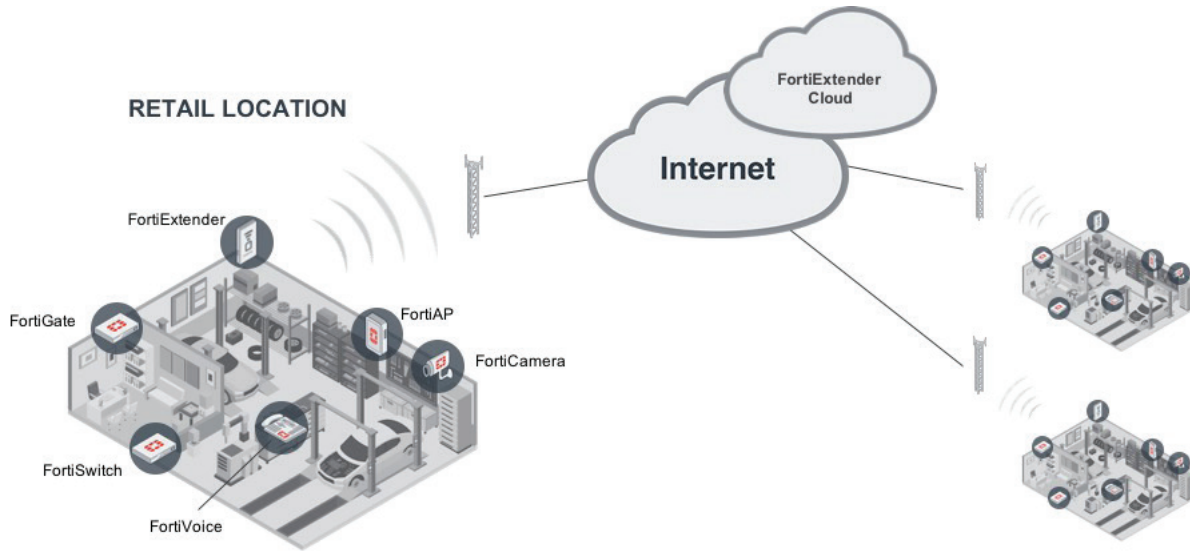

Manage your inventory remotely with the click of a button. Easily add, remove, or upgrade devices while keeping an eye on their health and status. Use profiles and groups to quickly change configurations for multiple devices at once.

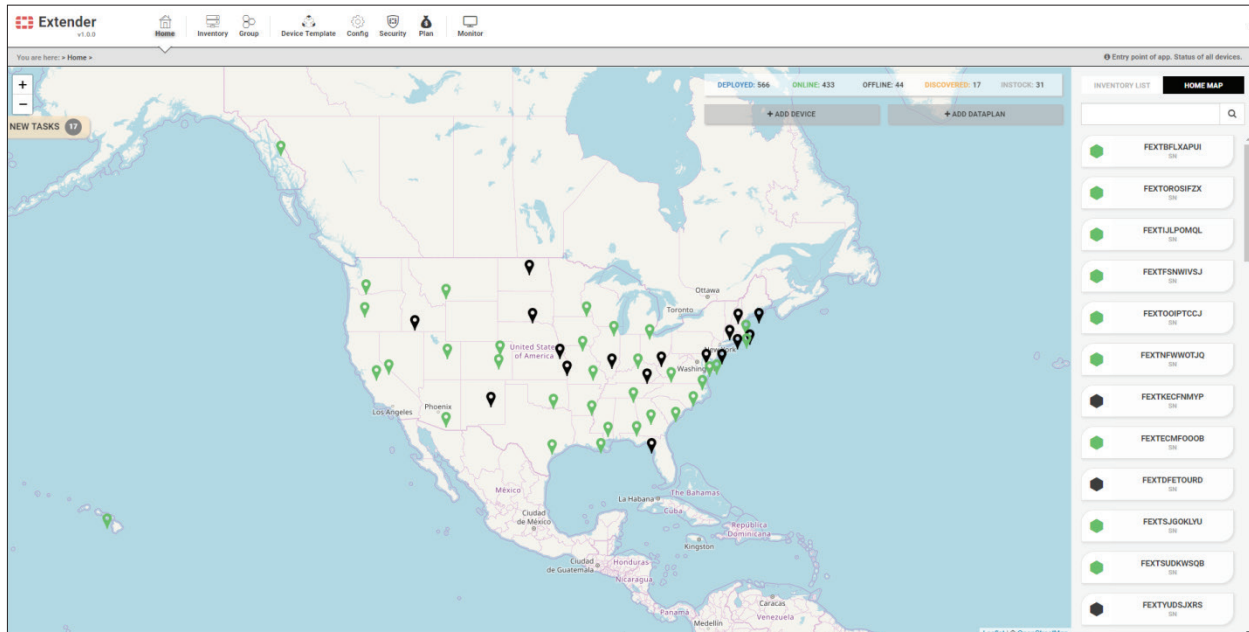

Understand your network behavior and performance with easily read information about users and devices. See at a glance how your LTE connectivity is performing and where bandwidth is being used. Quickly drill down into a device to see its configuration, carrier, location, and usage across its dual SIM cards.

Features

FortiExtender Cloud is able to manage FortiExtenders from a centralized, cloud-based management console.

FortiExtender Cloud can show the status and location of deployed FortiExtenders around the world, or you can zoom in and see them around your city.
